

ORA

FEED ADDITIVE

LIQUID ORGANIC ACIDIFIER DRINKING WATER APPLICATION

Composition:

ORA is a unique organic acid blend and is a potent antimicrobial for decontamination of water, feed and feed ingredients. It prevents bacterial and mould growth. ORA acts as a gut environment modifier by preventing colonization of the digestive tract by harmful bacteria.

Unique Advantages:

- Lowers pH of water.
- Acidification of GI Tract.
- Eliminates harmful pathogens in drinking water.
- Lowers feed buffering capacity.
- Establishment of preferred microflora within gut, facilitating nutrient absorption and bird's health.

Feeding Direction through water:

Prevention:	Broilers:	<ul style="list-style-type: none">• 1st and 2nd week 0.5 ml/litre of water in continuous water.• 3rd week onwards – 0.5 ml/litre of water for 6 – 8 hrs a day.
	Layers & Breeders:	<ul style="list-style-type: none">• 2 to 3 days per week – 0.5 ml/litre of water in continuous water
Supportive Treatment:	Broilers, Layers & Breeders:	<ul style="list-style-type: none">• 1 ml/litre in continuous water for 5 – 7 days at time of disease conditions.• Or as recommended by the Veterinarian.

Note:

The recommended inclusion of ORA in drinking water need to be standardised according to original pH of source water. To get better results it is advisable to maintain final pH of water 4.5 – 5. In no circumstances water pH should be lowered down to less than 4.

Packing & MRP.

1 Ltr: Rs.330.00 | 5 Ltr: Rs. 1650.00 | 25 Ltr: Rs. 8250.00
